EXPERIENCE

HUCENTRIC DESIGNS

July 2022 - October 2022

UI UX Intern

- Researched and designed a smooth UI iteratively on Figma.
- Strategized and created valuable content for the firm's social media platforms.
- Assisted my seniors in making the wireframes.
- Technology used: Figma, Notion

PROJECTS

TripCraft

- ChatGPT enabled website leveraging full stack embedded with chatbot using Generative AI for travel planner application.
- OpenAI API key is used to generate the itinerary of any place mentioned.
- Technology used: MERN Stack.

PlanIT

- Created a comprehensive event management platform with client, organizer, and vendor profiles, integrating video calls and chat for efficient connections tailored to budget preferences.
- Streamlined networking and collaboration by offering dedicated profiles for clients, organizers, and vendors within the platform.
- Technology used: MERN Stack.

Inventory Management System

- Integrated a transparent billing system to monitor items in the cart.
- Enhanced financial management for vendors by providing real-time visibility of available items.
- Technology used: Python, SQLite

Bank Management System

- Developed a Virtual Automated teller machine system.
- User can check their balance withdraw, deposit money and get the statement of their account.
- Technology used is Java and MySQL.

Portfolio Website

- Portfolio website with my resume built as a beginner, currently working on new portfolio website using React, GSAP.
- Hosted on Netlify.
- Technology used: HTML, JS.
