EDUCATION

B.Tech-Computer Science & Engineering

PARUL UNIVERSITY

04/2020 - Present

7.8

Gujarat Higher Secondary Education Board

Vivekanand Vidhyalaya

04/2019 - 05/2020

62%

WORK EXPERIENCE

JUNIOR SOFTWARE DEVELOPER

CLING MULTI SOLUTIONS

04/2022 - 12/2022

Achievements/Tasks

- Learning web and app development technologies using **MERN STACK**
- Developing web portal, creating **REST API'S**, create pages responsive using frameworks
- Helping other interns to learn these technologies

Codeunnati Industrial Traning Programme

Codeunnati Industry 4.0

02/2023 - 05/2023

Vadodara

Learn various tech under the industry 4.0 programme Artificial Intelligence, Machine Learning, Blockchain, IOT.

Achievements/Tasks

- Learn Python and various libraries related to data science, machine learning and artificial intelligence.
- Learn some basic about sensors and IOT device and software that can use with help of grove kit.

SKILLS

React

MongoDB

express

node

REST API

Tableau

Solidity

Javascript

Tailwind CSS

C++

Hardhat

ether.js

web3.js

Docker

PROJECTS

Survey-App (09/2023 - 10/2023)

- Create a React-Native Application from scratch get the basic understanding of routing and package integration in react-native & understand a basic backend setup to a mobile application

TO DO LIST WEB3 (04/2023 - Present)

- Created A TO DO list that allow user to create and delete task on Sepolia testnet using Next.js, tailwind css, hardhat, solidity, ether.js

Crypt-Transfer Crypto (04/2023 - Present)

(04/2023 - Present)

- Created A dashboard to transfer crypto currency to one wallet to another wallet using wallet address

Manage Web Page (04/2023 - Present) (04/2023 - Present)

- Created A responsive web page using react.js and tailwind css

LIVE FREE-Covid-19 Dashboard (06/2023 - Present)

- Developed Next app that containing product landing page login page and user can see all over data of covid-19 in graph format

CERTIFICATES

Certificate of Appreciation (08/2022 - Present)

Created a web portal on women security related named as SHE-CREATE

Analyzing and Visualizing Data with Tableau (02/2022 - Present)

(02/2022 - Present)

Creating multiple dashboard of different-different dataset using Tableau

Hacker-Rank C++ language proficiency (04/2023)

Solved multiple question of c++ programming language

ETH PROOF: Beginner EVM Course (04/2024 - Present)

Learned About basic of blockchain like SHA256, evm and some basic concept of solidity and blockchain development.

ETH PROOF: Intermediate EVM Course (04/2023 - Present)

(04/2023 - Present)

Learn All development tools like hardhat, ether.js, web3.js and solidity smart contract frontend integration.

SAP Industry 4.0 (02/2023 - 04/2024)

Successfully completing the training on Emerging Technologies (Artificial Intelligence, Internet of Things, & Enterprise Resource Planning)
